Chapter 1 by *-*

Don't you wonder why those loading things always take a long time to load. Well i do too, so you are not the only ones that wonder about this. A lot of people usually just exit out of the website and try again. Others just exit out and don't try at all because they get mad to easy, but we people just wait there for the website to pop up. Yeah sometimes people press that refresh button to see if it will work quicker, but sometimes it just makes it WORSE. In my opinion if i sit there for almost 5 minutes still waiting for the website load i will just get off, and watch television for the rest of my free time. So yeah loading is slow sometimes, but hey at least you have an excuse to going to bed late.
